

Creating Accounts with Twitter

Markus Neuhoff
ANDROID DEVELOPER

Pros of Signing-in with Twitter

Faster sign-in than email

Twitter's popularity

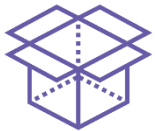

Potential access to additional data

Cons of Signing-in with Twitter

Your app is tied to Twitter's stability and security

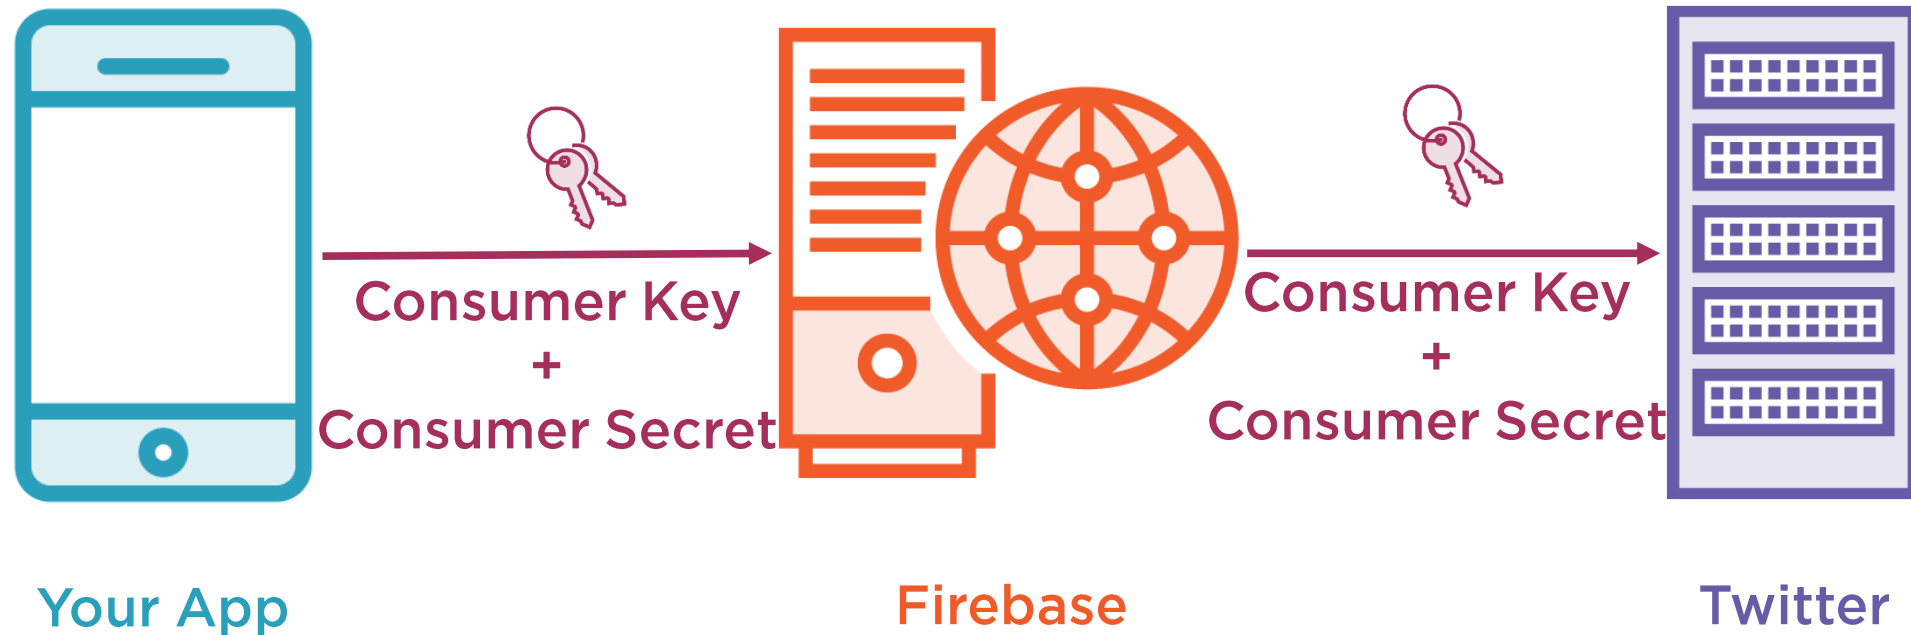

Additional Gradle library

Users may not want to link their social information to your app

Signing-in with Twitter

Demo

Create Twitter app and register with
Firebase

Add Twitter to our Android app

Reorder authentication providers

Summary

Twitter pros and cons

Twitter Developer Portal
