Matching Your Style

Your App Brand
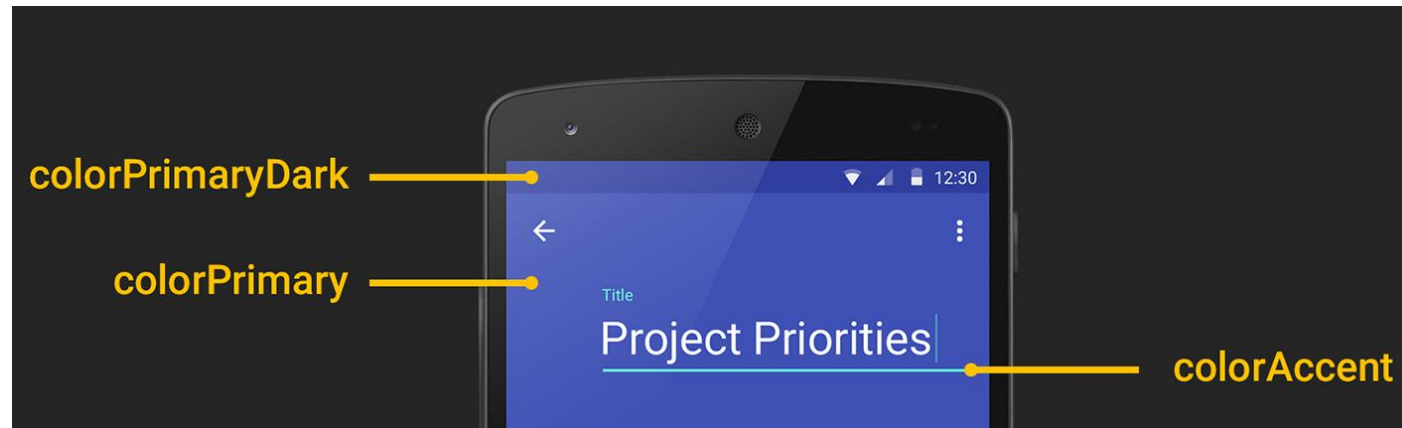

FirebaseUI Authentication Library

```xml
<style name="AppTheme" parent="Theme.AppCompat.Light">
    <item name="colorPrimary">#008577</item>
    <item name="colorPrimaryDark">#00574B</item>
    <item name="colorAccent">#D81B60</item>
</style>
```

# FirebaseUI Customization Options

Custom Colors

Custom Theme

Overriding Strings

New Custom Layout

Editing the Source

UI Changes to Make

Assess current app state

Select app-wide color scheme

Update app and sign-in experience based on assessment

Demo

Assess current app state

Select app-wide color scheme

Update app experience

Update sign-in experience
- Match theme
- Customize strings
- Custom layout

Demo

Default theme doesn't match app brand

Sign-in flow is plain

Note colors are loud and distracting

Title and body fields are harsh
